

REMARKS

Reconsideration and allowance of the present application in view of the amendments made above and the remarks to follow are respectfully requested.

In response to the rejection of claims 15-29 under 35 USC 112, 2nd para., and the objection to claims 15-29, claim 15 has been amended above.

In response to the non-statutory double patenting rejection of all the claims a terminal disclaimer accompanies this amendment.

In addition, Applicant denies any statement, position or averment of the Examiner that is not specifically addressed by the foregoing argument and response. Any rejections and/or points of argument not addressed would appear to be moot in view of the presented remarks. However, the Applicant reserves the right to submit further arguments in support of the above stated position, should that become necessary. No arguments are waived and none of the Examiner's statements are conceded.

In view of the above, it is respectfully submitted that the present application is in condition for allowance, and a Notice of Allowance is earnestly solicited.

The Commissioner is hereby authorized to credit any overpayment or charge any fee (except the issue fee) including fees for any required extension of time, to Account No. 14-1270.

Respectfully submitted,
